# PUBLIC WORKSHOP SCHEDULED

PA 41/PA 841 Intersection Improvement Project in the Village of Chatham  
in London Grove Township

The Pennsylvania Department of Transportation (PennDOT) Engineering District 6 cordially invites you to attend open-house workshops for both the PA 41/PA 926 Intersection Improvement Project in Londonderry Township and the PA 41/PA 841 Intersection Improvement Project in the Village of Chatham in London Grove Township, Chester County. PennDOT representatives and its design engineering team will be present to receive your ideas and answer questions.

The purpose of the meetings is to bring PennDOT, its design engineer, and the public together to develop multiple improvement alternatives to address the documented transportation needs and issues at these intersections. The PennDOT team will have conceptual alternatives on display for review and blank maps available for attendees to sketch new ideas and additional solutions. The ideas generated at the workshop will assist in the development of a preferred alternative for each intersection that will be announced at future meetings. There will be no formal presentation at the workshops.

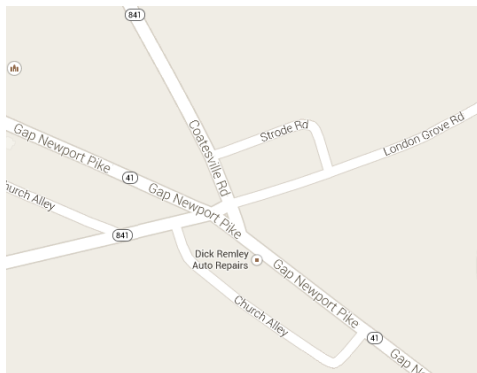

The public is welcome to attend and participate at any time during the open-house workshops. PennDOT will hold independent workshops for each intersection as follows:
